

The Manchester Jean Monnet Centre of Excellence

Annual Review of Activities, 2016-17

June 2017

1. Introduction

The Jean Monnet Centre of Excellence was created in 2003 with the financial support of the European Commission under its [Jean Monnet Action](#) and co-funded by the University of Manchester.

At the end of a three-year funding period its focus was broadened away from its initial concern with the European Union to European Studies more generally. At the same time the JMCE became more broadly based with partners from the University of Manchester, Manchester Metropolitan University and other local organisations.

The JMCE aims to provide a platform for European Studies-related activities and research in Greater Manchester and the North West of England. The Centre aims to strengthen the intellectual community in European Studies, while also facilitating local, regional and international links with practitioners, researchers, students and others interested in European affairs.

JMCE Centre relies on subscriptions from its principal stakeholders for its operation and is grateful for their continuing support.

The following pages report specifically on the structure and achievements of the Centre during the academic year 2016-17.
